PROJECTS

Tulie.ai

A designing and editing tool similar to CANVa. It has multiple pages, Layers options, Presentation mode, Elements like rectangles, circles and lines, images and integrated Ai to change the text or elements with a simple prompt.

Rent A Car

Built a seamless and user-friendly car rental platform designed to make booking a vehicle quick and convenient. The website features an intuitive interface for browsing our extensive car selection, comparing options, and reserving the perfect ride for any occasion.

The Book Maker

A tool that is used to create and design Cards, Book pages and Book Covers that can later be physically printed. The task assigned by the client was to work on the functionality and the features only.

Gift Shop

A website designed to search for the perfect gift based on the occasion, trend and time. It offers various filter options and price comparisons to make finding the perfect gift possible. tool that is used to create and design Cards, Book pages and Book Covers that can later be physically printed. The task assigned by the client was to work on the functionality and the features only.
